

JEEVAN GUDAVALLI

+91 7670986285 | jeevangudavalli4@gmail.com | [LinkedIn](#) | [GitHub](#) | Bengaluru, Karnataka

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building end-to-end web applications, RESTful APIs, and AI/ML-powered systems. Proficient in Python, JavaScript, React.js, Flask, and FastAPI, with practical exposure to Docker, Kubernetes, CI/CD pipelines, and cloud platforms (AWS, GCP). Delivered production-grade projects integrating machine learning models (TensorFlow, Scikit-learn) with scalable microservices architectures. Seeking a full-time Software Engineer / Full Stack Developer role to build impactful, user-centric products.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL, HTML5, CSS3

Frontend: React.js, React Hooks, Vite, Tailwind CSS, Responsive Design

Backend & APIs: Flask, FastAPI, Node.js, RESTful APIs, WebSocket

AI / ML: TensorFlow, Keras, PyTorch, Scikit-learn, NLP, Model Deployment

Databases: MySQL, PostgreSQL, MongoDB, Redis

DevOps & Cloud: Docker, Kubernetes (K8s), GitHub Actions, CI/CD Pipelines, AWS (Basics), GCP (Basics), Linux

Security: OWASP Top 10, XSS, SQL Injection, CSRF, Security Headers Analysis

Tools: Git, Postman, Power BI, VS Code, Celery

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern | CODTECH IT SOLUTIONS PVT LTD | Hyderabad, Telangana
Dec 2025 – Apr 2026

- React.js, Node.js, HTML5, CSS3, and JavaScript** Developed responsive web applications using , implementing user authentication, RESTful API integration, and database connectivity under senior mentorship.
- code quality and technical proficiency** Delivered multiple full-stack features on schedule, earning recognition for across all assigned sprint cycles.
- Collaborated in Agile team workflows — participated in code reviews, daily standups, and iterative delivery, improving team velocity.
- MySQL and PostgreSQL** Integrated third-party APIs and implemented database schemas using , optimising query performance by normalising tables and adding indexed lookups.

PROJECTS

Intelligent Full-Stack Web Security Analyzer Using AI [\[Demo\]](#) 2024 – 2025

Technologies: React.js, FastAPI, Flask, TensorFlow, Scikit-learn, Celery, Docker, Kubernetes, PostgreSQL, Redis, OWASP, GitHub Actions

- React.js (frontend) and Flask/FastAPI (backend)** Built a high-performance AI-driven security scanning platform using , achieving a 98% accuracy rate in detecting SQL Injection, XSS, and CSRF vulnerabilities via custom TensorFlow / Scikit-learn ensemble models.
- custom React Hooks (useWebSocket) and Celery task queues** Engineered real-time vulnerability streaming with , reducing scan result latency by 40% and delivering live feedback to end users.
- Docker and Kubernetes (K8s)** Architected a scalable microservices environment using , orchestrating a multi-container ecosystem (PostgreSQL, Redis, Celery workers) that achieved 99.9% uptime.
- GitHub Actions** Built and automated security-first CI/CD pipelines via , enforcing OWASP Top 10 compliance gates on every build and reducing deployment time by 50%.

- Implemented dark/light mode theme system with CSS variables, login page with JWT-based auth context, and custom XSS/SQLi/CSRF scanner modules.

EDUCATION

B.Tech – Computer Science (AI & ML)

2022 – 2026

Andhra Loyola Institute of Engineering & Technology, JNTUK

CERTIFICATIONS

- Full-Stack Web Development – Udemy
- Python Essentials – Cisco Networking Academy
- Artificial Intelligence – SkillDzire

KEY ACHIEVEMENTS & HIGHLIGHTS

- Achieved 98% ML model accuracy in real-world security vulnerability detection using ensemble learning (TensorFlow + Scikit-learn).
- Reduced system scan latency by 40% through real-time WebSocket streaming and Celery-based asynchronous task processing.
- Designed microservices architecture with Docker + Kubernetes achieving 99.9% system uptime in a multi-container production environment.
- Automated CI/CD pipelines cutting deployment time by 50% while enforcing OWASP Top 10 security compliance on all builds.
